## Kendal at Oberlin's Legacy

---

A score of years has come and gone --  
the heritage of KatO:  
what once was planted at the dawn  
and watered, nurtured, urged to grow,  
has risen from the fertile soil  
of thoughtful, kind, creative minds,  
and ranks of those content to toil  
for greater good (the nobler kinds  
of selfless acts which give the gift  
and also bring the giver joy).  
Then let's join voices to uplift  
the practices that we employ,  
the values which set us apart:  
community, integrity,  
the bonds of friendship from the heart;  
the care that maintains dignity  
when loss of health and mind converge;  
the growth and learning coming where  
fresh opportunities emerge;

a wholesome openness and care  
where all are welcome with respect;  
with soundness in financial plans,  
as quality and care connect.  
So put together both your hands  
and let's applaud all that's been done:  
the venues that help keep us fit,  
activities we do for fun,  
the work and time that we commit  
to educate and build new skills;  
the wonderful environment,  
and stewardship which that instills.  
Through all of this development,  
where bricks and lives and values met,  
the dreams became reality.  
To sum it up the best way yet,  
one word stands out: Vitality!

resident Don Parker*

### **KatO 20th Anniversary: Create, Participate, Celebrate, Anticipate**

Thanks to the hard work of an incredible team of residents and staff, KatO has made it to the grand finale of our 20<sup>th</sup> Anniversary celebrations! We've all picked up a copy of Dick Baznik's "The History of Kendal at Oberlin," chosen our favorite Anniversary Punch, enjoyed the Anniversary Musical Revue (while

admiring Bob Cothran's anniversary backdrop), and checked out the Heiser memorabilia shelves and the Kendal Photo Retrospective in Friends Gallery. We will kick off October by building our "Kendal Family Tree," using the "leaves" provided by Kendal's Diversity Awareness Committee. Details will

appear in your open mailboxes soon. We'll celebrate together at the anniversary reception and dinner on Friday, October 4, then attend the Anniversary Symposium on "The Future of Affordable Health Care in an Aging Population" at Warner Concert Hall on Saturday, October 5. The Symposium will also be streamed live to Heiser Auditorium. And don't miss Don Parker's play, "Pleasant Ponds," on Saturday, October 12. A special treat will be an anniversary retrospective issue of *Eureka!* due out in mid-October.

## KNOW YOUR KORA COUNCIL

I've just read "The History of Kendal at Oberlin." What a story!

All Kendalites join me in great thanks to Dick Baznik for completing this task. And thanks to John Elder for getting the process started two years ago. And to the committee that reviewed plans and drafts: Connie Boase, Martin Davidoff, John Elder, Thelma Morris, Dina Schoonmaker, Priscilla Steinberg, and Don VanDyke. And to all residents and staff who, from the beginning, have created such a vital community that it's easier to write a good story.

If you've not yet gotten your complimentary copy of the book, or want to order extra copies (\$10 each), leave a note for Priscilla Steinberg.

What fun we all had at the Musical Review on September 21! Thanks from all of us to Carol Longsworth, Ruth Ann Clark and others for its creation, and to Helen Taylor, George Hannauer, the Kendal Anniversary Singers and the Stephens Care Center Bell Choir for such a delightful performance. Kendal at Oberlin's 20<sup>th</sup> Anniversary Celebrations will climax this weekend, as noted on the front page and elsewhere in this *Kendalight*. Be sure to take part!

KORA's newest committee, the Slow Medicine Review and Oversight Committee, has begun to plan ways to help Kendalites and their families better understand and practice Slow Medicine approaches to health care. They will encourage residents to consider end-of-life choices, to visit with their families as well as Kendal staff about their

Contributions toward the **2014 KORA budget** are running a little behind a year ago. To date (9/26), 131 individuals have contributed \$16,715 toward our goal of \$28,500. If you've not yet contributed, and are able, put your check to KORA, in the marked box on the Heiser Reception Desk by October 11.

options, and communicate relevant decisions to both. They will encourage residents to build an advocacy team which may include other residents or close friends to support their decisions, especially in emergency situations.

The Committee will build a modest library of relevant books, articles and videos to stimulate conversations about Slow Medicine options and decisions. They may initiate conversations, formal or informal, among residents, and schedule occasional programs or speakers (such as a program focused on recognizing developing dementia and supporting affected families). They will explore a regular presence in *The Kendalight*. In these efforts, they expect to engage and cooperate with Kendal staff, relevant Board Committees, and ongoing related KORA committees such as Care and Nurturing and *Health Care Newsletter*. -Don Reeves, KORA President

## Salvation Army Needs YOU!

For the past 19 years, Kendal residents have been weekend bell ringers for the Salvation Army at IGA in the weeks before Christmas. All money collected stays in Oberlin to feed, clothe and house the transient in town and to help pay utilities. Last year close to \$20,000 was collected.

For many years, Martha Stacy was the coordinator, assigning Kendal residents to work in the lobby of IGA. But now Martha has retired.

Please help us help the Salvation Army:

- We need a resident coordinator.
- We need Kendal residents to volunteer for two-hour shifts to stay with the kettles over the weekends. Contact Joe Luciano (the man with the yellow Michigan hat).

Members of the *EUREKA!* Board re-examined over 610 contributions from 152 residents and suggested art and writings to be included. Final decisions were made by the current and former Board chairs and editors. Come share in this happy occasion. After the presentation, pick up your own copy of this retrospective *EUREKA!* and enjoy punch and cookies with us.

## RAFF Shop Talk

Where you find Reasonably Assessed Finery and Furnishings

Recently a friend sent me a photo of a garage wall lined with boxes of "stuff." As I read the words below her picture, I understood that she was asking a question about the extent to which we are focused on holding on to all that we possess. Since RAFF deals with stuff, my response to her question is that we are indeed engaged with the possessions in our lives. Sometimes when we give away stuff that we have treasured and it goes to another person who will treasure it also, we experience relief.

We work to clear our spaces out of an affirmation of life and also out of the generosity of our hearts. This month I want to highlight the work of volunteer Jim Helm, who has been tracking the furnishings that are being left behind by the contractor in the cottages being remade, things that have value for RAFF and also potentially for Habitat for Humanity. He has enlisted support from his woodshop colleagues as well. As stewards of all that we have (earth, resources, stuff), we are reusing before we recycle. This is a winner for all of us and the environment in which we live. Thank you, Jim!

Receipts for the month of August were \$1,667. Thanks to ALL the volunteers -- workers and givers -- who make the RAFF possible.

## **Computer Users Group “VirtualBox Virtualization” Tues., Oct. 29 - 7:15pm - AUD**

Virtualization is the ability to run multiple operating systems as “guests” inside your existing operating system. Neil Higgins, Information Technology Dept. Head, Ohio Business College, Sheffield Village, OH, will demonstrate a running installation of VirtualBox, along with the installation of a Linux guest system inside VirtualBox on a Windows 7 system. VirtualBox is a cross-platform virtualization application. What does that mean? For one thing, it installs on your existing Intel or AMD-based computers, whether they are running Windows, Mac, or Linux operating systems. Second, it extends the capabilities of your existing computer so that it can run multiple operating systems (inside “virtual machines”) at the same time. For example, you can run Windows and Linux on your Mac, run Windows on Linux, run Linux on your Windows PC, and so on, all alongside your existing applications. You can install and run as many virtual machines as you like – the only practical limits are disk space and memory.

## **All About the KatO Woodshop**

The Kendal at Oberlin Woodshop has been an important part of Kendal since inception. Planning was begun in 1993 shortly after Kendal opened, and within six months a room had been found and equipped with several work benches. A life membership was established with a \$20 fee. Major power tools have been donated to the shop, as well as hand tools, which can be used in the shop or borrowed by members for use elsewhere. An efficient exhaust system has been installed by one of the residents. From the start the Woodshop provided space and tools for members to create their own projects and to build or repair items for other residents. By September 1994 a policy was established to charge a nominal hourly fee plus material costs for Woodshop services, with the proceeds going into a Woodshop fund to be used for purchasing new tools and supplies. Uncounted closet shelves and bookshelves were built for residents.

The Woodshop was expanded in 1996 to include a room to the north for finishing work free from the sawdust of the shop. Woodshop members built the new room, providing two benches, storage shelves, and a lumber crib. The expansion also included substantial improvements in the original shop to supply power to the many pieces of equipment then not near any outlets. In 2014 the Woodshop will expand to encompass the room currently used by Channel 19 which will get its own new facilities. This room will become the finishing (paint) room, and the former finishing room will provide space for

some of the power tools, thus relieving dangerous congestion in the main shop. Here are some of the projects completed by Woodshop members: work areas for the Craft Room and a dark-room for photographers; dry sinks and cabinetry in the Horticulture Room; shelves, a new counter and paint for the gift shop; an audio-visual cabinet, stage stairs and flag stands for the auditorium; a magazine rack and bookshelf for the Library; a desk for the Computer Group; “You Are Here” directional signs; the Courtyard Garden gazebo and potting bench; a rabbit hutch, outdoor deck and signage for the Kendal Early Learning Center; picnic tables rebuilt for Facility Services; croquet, horseshoe and shuffleboard courts; a miniature golf course; benches for pathways; a path in the woods by Green Pond; bluebird houses for nest box trails; many closet shelves and bookshelves built for residents; and uncounted repairs to community and resident property as well as to contributions for the RAF. Woodshoppers touched up woodwork in Heiser and SSC; refinished the library desk and the top of Conference Room table; cleaned and touched up dining room chairs and replaced and sanded chair glides for the Fox and Fell; touched up the auditorium chairs and library chairs; refinished benches annually throughout Kendal; stained the Courtyard Garden Gazebo; repaired various bridges. The Committee also built a tool shed for Pleasant School; stilts for the Heritage Center’s children’s programs; signs for the Oberlin Early Childhood Center; renovated equipment for the “Safety Town” program; and a wheelchair ramp for an Oberlin resident. *-Jim Helm*

## Take a Trikers-Bikers Ride on October 19

If you have a cycle of some sort, you might like to try a trip to the trail! On a hopefully, nice fall day in October, we want to gather Kendal cyclists for an outing on the Oberlin section of the North Coast Bike Trail. We may strive for two groups starting out together: a less ambitious (few miles) and a more ambitious (10-15 miles). This is an exploratory venture for interest's sake, as well as for exercise. We will ask those interested to sign up on the Activities Board for a present -- or a future venture.

Hoping for temperatures of 55-80 F (and a dry day), we will plan on Saturday, October 19 as our first choice. Rain date: Sunday, October 20. Meet at KatO apartment parking lot at 2:30pm. Questions? Call Joyce Parker.

## Ping Pong (Oops!), Anyone?

New residents who've been chided for uttering the p-word -- it happened! -- may relax: The language code has been revised. Henceforth, it's permitted to say "ping pong" if one is: a) referring to the sandpaper-paddle game one played in the garage with Uncle Henry as a kid; or b) using the term humorously: ("No need to call 911! It's just a little ping pong ball!") Better yet, join us for our three-times weekly morning sessions and advance from ping pong to table tennis with lots of friendly help.

During August, we averaged 10 players daily per session, and in late September we were holding well to that average.

Two residents who just thought to peek in wound up enjoying themselves at the table. It could also happen to you. Stop by! Watchers, too, are always welcome.

*-Sidney Rosenfeld, Chair  
Sports & Recreation Committee*

## Looking for a Volunteer Post?

The Kendal Volunteer Committee is anxious to help residents find the volunteer position that will fit their unique skills and interests.

There are several new volunteer openings -- please check the Volunteer Bulletin Board in the West Corridor, just before the Kendal Early Learning Center. We will post volunteer requests there. Or call Anne Elder.

**And remember! Keep track of your volunteer hours for our report at the end of the year when we'll tally the hours for 2013!**

## Dining and Nutrition Services

### 20 Founders Reception and 20th Anniversary Dinner

Kendal at Oberlin's 20th Anniversary Dinner celebration will be held on Friday evening, October 4. The Founders Reception begins at 4:00pm in the Heiser Auditorium.

Oberlin College President Marvin Krislov will speak: "Kendal and Oberlin: A Perfect Fit." Then appetizers will be served to everyone in Heiser Lounge. After the Reception, a celebratory special menu, offering full waited service, will be served in all dining rooms.

### MEET, GREET AND EAT Monday, October 28, 5:30pm

Meet, Greet and Eat returns to give Kendal residents the opportunity to share a meal with other residents with whom they don't usually eat.

Just sign up in advance, come to the Heiser Lounge at 5:30pm and draw a number which will correspond to your table in the Fox and Fell or William Penn Room, where you will meet your tablemates. You get your meals as you usually do, either by ordering from the menu or going to the buffet. Sign-up sheets for Meet, Greet and Eat will be posted below the open mailboxes on Monday, October 21. Usual dining options in Langston and the Fox and Fell will be available for those who do not wish to participate. Do join us -- and don't forget to wear your name tags.

### Bird Feeder Guidelines

Some of our residents fill the bird feeders for people in the Stephens Care Center. This step was recommended as a way to help alleviate depression. As Chair of the Care and Nurturing Committees, I have become involved and learned that:

- No bird feeders will be placed in the Courtyard Garden.
- The bird feeders in the Greenleaf Garden will use only black oil sunflower seeds.
- We are asked not to use thistle seeds to fill the feeders. The thistles that germinate have prickles and are difficult to pull up. This is true not only for the Facility Services staff but also for our own resident gardeners. Recently one of the Stephens Care Center residents tried to pull up some weeds that had grown in a pot in Greenleaf Garden and ended up in our clinic because of the thistles.
- Our volunteers do not want to use irradiated seeds. They do not germinate but irradiated seeds may be bad for the birds.

*-Connie Bimber*
