## Keep on Moving Oberlin

The third of four Mobility Fairs, funded by a \$5,000 grant from Kendal Charitable Funds, will be held on Monday, September 21 from 2:00-4:00pm at the Mt. Zion Baptist Church Fellowship Hall, 81 Locust St., Oberlin.

Kendal at Oberlin is offering a series of four free mobility fairs during 2015 for our own residents and other seniors from the Oberlin area.

This fair will again feature several demonstrations and information about programs that can improve your mobility and balance. Kendal's Physical Therapy department will bring their popular balance machine; Drug Mart will demonstrate several assistive devices, and there will even be a dance demonstration.

Once again, there will be a free raffle drawing for gift certificates to Oberlin's favorite stores.

Free transportation to the mobility fair is available. (Call ahead to arrange a ride: 440-775-9894).

If you missed the first two fairs, you'll want to attend this one -- or the fourth such fair at Kendal at Oberlin in December. See you there!

## KNOW YOUR KORA COUNCIL

“If the light bounces off something a little differently, it can be seen in a whole new way.” This line about the potential in an attitudinal shift is from Jennifer Senior’s review of “Neuro Tribes: The Legacy of Autism and the Future of Neurodiversity,” by Steve Silberman, in *The New York Times*, Sunday, Aug. 23, 2015. It is referencing an autistic young woman’s delight in seeing lights playing off a Coke can! September is a season of changing light and the beginning of a new year in many ways at Kendal at Oberlin.

We residents are gearing up for a quickened pace in programs, meetings and activities. Newcomers are getting oriented and, as their perspective changes, have begun to ask us different questions. For some who’ve lost loved companions and friends, everything is being seen in a different light.

As you consider Kendal’s September calendar, new to some of you, all too familiar to others, I invite you to challenge your habitual perspectives and to play with different ones.

Committee and Subcommittee Chairs will deal with a couple of important housekeeping tasks in September.

These tasks can be drudgery -- or a chance to look at things a little differently. KORA Council’s Coordination Committee will send out the forms to be completed for the committees’ Annual Report to Council. Each report will include major accomplishments, plans for the next year, active members, concerns, and status of emerging committee leadership. In addition, the committees will be developing their 2016 budget requests, due to KORA Treasurer Ira Steinberg by the end of the month. I encourage our committees to play with perspective as they look at their goals for next year.

This month, we will all receive a letter inviting contributions to the 2016 KORA budget. Look around, perhaps with a different perspective, to see the

many ways our lives are enriched by our programs, resources and activities. Ask if this would be happening if it weren’t for some KORA committee, service group, individual volunteer. KORA exists because we do, and the budget exists because we give! So be generous, if you can.

With a hint of Fall in the air, it’s time for us to focus with renewed energy on “all things Kendal.” The Nominating Committee is looking for some good people to fill Council positions. But all of us should be getting to know our new residents’ interests and skills, inviting someone to join us in

our particular volunteer area. The Transportation Commission will resume. The next Keep Moving Oberlin Mobility Fair takes place on September 21 (see p. 1).

There are other exciting plans in development: A small group of residents is exploring a plan for Kendal to become a designated Arboretum. An initial report is expected at KORA Council this month or next. It’s hoped that we’ll have an informational forum on our Kendal wetlands, their management, and future plans soon.

Let’s play with perspective!

Bush, the War on Terror, and its coverage in the news media. The film generated intense controversy, including disputes about its accuracy. It debuted at the Cannes Film Festival and received a 20-min. ovation, among the longest standing ovations in the festival's history. It also won the festival's highest award, the Palme d'Or. The film alludes to Ray Bradbury's 1952 novel "Fahrenheit 451," a dystopian view of the future United States, having an analogy between the autoignition temperature of paper and the date of the September 11 attacks. ## Welcome Kendal's New Residents

### Gary L. Olin and Saranne "Sally" Nelson-Olin

**Gary:** I was born in Youngstown and grew up in rural Mahoning County. I received a BA from Otterbein College and a MDiv from United Theological Seminary, institutions of the former Evangelical United Brethren Church, the denomination in which I was reared. While a seminary student, I did an internship in Harrisonburg, VA. In 1980 I receive a DMin from San Francisco Theological Seminary.

I was married to Judith A. Stone from 1963 until her death in 2005. In those years I was minister for United Methodist congregations in northeastern Ohio and finally District Superintendent for the Youngstown area United Methodist churches.

In 1980 I was an international exchange pastor with the British Methodist Church on the Isle of Man, a significant experience which has led to continued connection to that beautiful island and many friends there.

Travel for church business and pleasure has taken me to many places in the world; major among these are more than a dozen trips to the Middle East, including Palestine, Israel, Jordan, Egypt, and Turkey.

I have served beyond the local congregations in regional, national and international organizations, including the Ohio Board for United Ministries in Higher Education, the Society for Biblical Studies, and the World Methodist Council. Currently, I am a member of the boards of Directors of Flat Rock Homes, Lakeside Chautauqua, and the Heritage Society of the Evangelical United Brethren Church, as well as a trustee of the United Theological Seminary, Dayton, OH.

Saranne (Sally) P. Nelson and I were

married in 2006, a year after I retired. We made Lakeside, OH, our home until we moved to Kendal. Between us, we have five married children and eight grandchildren. We are very pleased to join this vibrant Kendal community.

**Sally:** Born in East Cleveland's Huron Rd. Hospital, I was given the name Saranne (for my two grandmothers, Sarah and Anna), but was nicknamed "Sally" almost immediately. I grew up in Lyndhurst, graduated from Brush High School and Otterbein College, and taught secondary English in the Columbus Public Schools. I moved to London where, for two years, I tutored in American Dependent Schools.

After returning to Ohio, I taught for three years in the South Euclid-Lyndhurst City Schools, then pursued a vocation in ministry, graduating from United Theological Seminary in Dayton, OH, and was ordained in the East Ohio Conference of the United Methodist Church.

I pastored Ohio churches in Savannah (Ashland County), Lorain (where Maggie Stark was a parishioner), Chagrin Falls, Akron, and South Euclid, as well as spending a year as Director of Development at United Seminary. Prior to retirement I served as a district superintendent in the United Methodist Church in the former Wooster district and the current Firelands district.

I have served on numerous boards and agencies; edited our conference journal; led workshops, retreats and seminars; published sermons, curriculum materials, and a historical piece on women's right to vote in Methodist Episcopal Church governance.

I traveled internationally in England, Wales, Scotland, Ireland, the Isle of Man, France, Italy, Germany, Austria, Israel, Palestine, Jordan, Kenya, and Liberia.

I was widowed in 2004, but was blessed in 2006 to start a new life with a long-time colleague, Gary Olin. We share five married children and eight grandchildren. We have enjoyed traveling together both internationally and in this country. Our favorite method of travel on this continent is Amtrak, which we board frequently in the wee hours of the morning to visit children and family members in California, Colorado, Illinois, Massachusetts, Missouri, Montana, Oregon and Pennsylvania.

**Kendal Resale Shop Talk**  
*Benefitting Kendal Resident Assistance Fund and Community Charities*

Our regular columnist *Resale* has been on vacation this month. Instead, here is the news for now:

**August:** Two events were featured -- the special apartment sale and the summer clothes half-price sale. The apartment sale included our special Christmas Sale for the season, this time in August instead of starting on Thanksgiving morning. Since we now have a dedicated community space, we will not have access to "Room 280" where the holiday sale has been held for several years. Our shop will be decorated for the holiday, but more like other shops. We are glad to have had the chance to hold a special Christmas sale -- even in August. And why not? There is nothing like getting ready early for the holidays!

We also were glad to offer all summer clothing at half price near the end of the month. It was another good way to close out shopping in August.

**September:** We will be introducing our line of fall and seasonal clothes after Labor Day. Be sure to check out the specials. You will be pleased to find such great items at low prices. We are your friendly shopping place. THANK YOU to our donors, our shoppers, the Facility Services staff, and our own great team of volunteers. We would not be able to function without everyone!

In July, our receipts were \$1,906.85, including \$5.00 from the work of the Threads group. Again, many thanks.

**Highlights of July 2015**  
**KatO Board Meeting**

The board was provided various reports including an update on construction and Campus Wi-Fi targeted for completion in August.

A special financial assessment looking at various scenarios for the long term is being completed by our investment firm, NEPC, with results due to the Finance Committee and full board in the coming months. Financial statements for May 31, 2015, were accepted, noting revenue tracking slightly below budget, but operational expenses controlled and under budget.

Performance ratios are in fine shape. 94% of the Independent Living units are now under contract, an all-time high for years.

The Board was scheduled for a tutorial on the CCRC Financial Model on August 7 that included KORA officers. Kendal is getting ready for the annual financial review by Standard and Poor's.

Staff reports included focused staff training on dementia using expert Teepa Snow. KORA shared the results thus far for the "Keep Oberlin Moving"

Mobility Fairs being held in various community locations during 2015. The July generative discussion focused on evolving technology for senior living and retirement communities. Materials were presented for Q&A regarding technology uses in the clinical area; outside marketing partners such as Independenda used by Kendal at Home; security technology used on our campus; and the necessary updating of technology used in Food Services and Facility Services. The implementation of Wi-Fi will expand many uses of technology for both staff operations and resident convenience.

## Table Tennis Tally

In August our table tennis numbers dropped slightly, from an average of 12 players per session in July, to 10. What remained constant was our fun at practicing with one another, helping one another improve, playing against one another. And the "against" is special, too. Namely, whether we win or lose at our games, we do it in a spirit of mutual respect and camaraderie. In the end, we're all winners. For what we see, and what was especially clear the past month, is progress at a sport with multiple benefits, physical, mental, and social. More and more, beyond the regular fun of Kendal table tennis, we're experiencing moments of pure pleasure, indeed of joy. They come, for example, when a rally in practice or a game tops what we'd managed up to then; or when we combine a forehand with a backhand as we'd always strived to. At such times, the shout of "I did it!" or "Did you see that?!" prompts smiles and praise at all three tables.

Find out how well such claims stand up! Stop by and watch -- and maybe give Kendal table tennis a try!
